Woodmansey Youth Club at TASR

The Woodmansey Youth Club sessions at TASR over the last year have proved to be very successful for the youth in the area and as such we would urge you to consider a grant for us to continue offering this service for a second year.

Please would you consider a £2000 grant to be paid to TASR? We are thrilled that TASR are happy to continue at this amount as it is very good value for money based on how many of the children use the facility.

If all 113 Members used TASR every Tuesday for the all of the year the cost would be £35,256. On average there are actually 15 Members using TASR every Tuesday which equates to £4680.

As an aside to the Tuesday sessions TASR offer all-night sessions, holiday club sessions and other family orientated events through-out the year. I believe the safe environment they offer has been extremely beneficial to the children that attend.

There has been a recent change of ownership and the new owners are keen to continue the relationship with the youth club. They have done quite a bit of refurbishment to the venue which now includes a gym and improvements in the café along with a new seating area for parents.

It would be great if you could give this request your swift attention as I understand the agreement does run out in July.

Yours faithfully

Louise Barrett
